Line List Reports by Cycle of Clients Served with Any Procedure Reports

C-LLCP – Colorectal Cancer

P-LLCP – Prostate Cancer

O-LLCP – Oral Cancer

S-LLCP – Skin Cancer

Purpose

The purpose of this report is to provide a line list of clients served with any type of procedure for any purpose (screening, diagnosis, or treatment) within the procedure date range selected. Each row represents a client's cycle. Which client's cycle(s) get included in the report depend on the parameter options selected.

Explanation of Report Selection Criteria

Selections (parameters) include:

- Jurisdiction/Program
- Start Date, i.e., the first **procedure date** that you want included in the report
- End Date, i.e., the last **procedure date** you want included in the report
- Gender
- Sponsor
- Minority Status
- Final Diagnosis, according to the final hierarchical CRC diagnosis
- And/Or
- Cycle Outcome
- Purpose
- PE/Pre –Visit
- Sort By options
- Suppress Client Name
- Report Type

A main feature of this report is the ‘Purpose’ parameter. The report allows for various combinations of procedures by ‘Purpose.’ The following selection options are available under the Purpose parameter: 1) All, 2) Diagnosis, 3) Screening, 4) Treatment, 5) Diagnosis & Treatment, 6) Only Diagnosis, 7) Screening & Diagnosis, 8) Screening & Treatment, 9) Only Screening, 10) Screening & Diagnosis & Treatment, 11) Only Treatment, and 12) Diagnosis or Treatment. The sort options available are: 1) CDBID, Date of Earliest Screening Procedure, 2) Client Name, Date of Earliest Screening Procedure, 3) Cycle Outcome, Client Name, Client Cycle, 4) Cycle Outcome, Date of Earliest Screening Procedure, 5) Date of Earliest Screening Procedure, CDBID, and 6) Date of Earliest Screening Procedure, Client Name. The client name can be suppressed to secure confidentiality of the report.

Description of the Report

This report presents a line listing that shows the: program name, the Client ID, client’s last name and first name (if not suppressed), date of birth, gender, age at screening, ethnicity, race, earliest screening procedure and screening procedure date, earliest diagnosis procedure and diagnosis procedure date, earliest treatment procedure and treatment procedure date, final diagnosis, and cycle outcome. A client will be listed on more than one line if s/he has undergone screening in more than one cycle during the time period specified.

The final portion at the end of the report is a summary table displaying counts for the number of clients/cycles/procedures, final diagnosis (or screening impression), and cycle outcome. The first column is labeled “Clients/Cycles/Procedures” and lists the number of unique clients in the report, total number of cycles, number of screening cycles, number of earliest screening procedures, number of earliest diagnostic procedures, number of earliest treatment procedures, number of screening, diagnosis, and treatment procedures. The next column reports totals each of the possible final hierarchical diagnoses (or screening impression) for each cycle. The third column reports totals for each of the possible cycle outcomes.
