### Examples

- If a family of three has an annual income of \$38,000, the family's annual income would qualify the child
- If a family of three has an annual income before medical expenses of \$48,000 and has made annual payments for eligible medical expenses of \$9,000, the family's annual adjusted income of \$39,000 would qualify the child for the CMS Program.
- If a family of three has an annual income before medical expenses of \$44,000 and has made annual payments for eligible medical expenses of \$2000, the family's annual adjusted income of \$42,000 would **not** qualify the child for the CMS Program.
- If a family of three has an annual income before medical expenses of \$51,000, the child would **not** qualify for the CMS Program regardless of the amount of annual payments for eligible medical expenses.
