

**The Health Care Transition Leadership Team** would like to offer the services of their Speaker's Bureau to your agency/organization. The Speaker's Bureau was established in 2015. It provides CME and CEU-appropriate lectures by knowledgeable health professionals on a wide range of topics relating to health care transition.

Health care providers in other specialties will often encounter health care transition issues. For example, medical home, juvenile counselors, mental health therapists, and even school nurse. A sample of available topics includes:

- Health Care Transition Strategies
- Integrating Multidisciplinary Teams into Health Care Transition Model
- Best Practices of Youth to Adult Transition

With advanced notice we would likely be able to provide a speaker on almost any health care related - related topic.

If you are interested in utilizing our Speaker's Bureau for your group or agency please contact Mary Price at 410-767-5581 or [Mary.Price@Maryland.gov](mailto:Mary.Price@Maryland.gov).

We look forward to working with you.
