

Dear Parent(s),

This Care Notebook has been developed especially for you-parents of children with special health care needs. We hope it will serve as a guide to help you maintain important information that is necessary for family, other caregivers, and professionals involved to provide the highest quality care for your child.

Make this Care Notebook work for you! We encourage you to create your own sections; remove, rearrange and/or add pages to fit your needs; and personalize it with drawings, stickers, photographs, and special articles and resources you've found helpful.

If you have suggestions or comments about the Care Notebook, please feel free to contact:
